OTHER INGREDIENTS ----- 95%

TOTAL ----- 100%

EPA Reg. No. 64405-2

EPA Est. 64405-TN-1

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

Personal Protective Equipment (PPE)

Applicators and handlers must wear: Long-sleeved shirt and long pants; chemical-resistant or waterproof gloves; and shoes plus socks.

First Aid

If In Eyes: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.
If On Skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

Environmental Hazards

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high-water mark. Do not contaminate water when disposing of equipment washwaters or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Storage & Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a dry place. Do not store where children or animals may gain access. **Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Disposal:** Completely empty container. Then dispose of empty container in a sanitary landfill or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

APPLICATION SITES AND DIRECTIONS

Place tip of applicator into area you want to treat and squeeze 4 to 6 short, quick puffs for every lineal foot of area to be treated.

1. Apply under and behind appliances in kitchens, bathrooms and utility rooms (remove kick plates if possible).
2. Remove kitchen and bathroom drawers and apply a light dust of this product into drawer wells.
3. Kitchen and bathroom cabinets and vanities often have a space between the floor and the bottom drawer. This is an ideal living area for cockroaches and ants. If a gap exists along the top or bottom of the kick plate, dust this product into the void area. If no gaps are present, drill a ¼ " hole every two feet along the kick plate, making sure to drill at least one hole under each cabinet, and apply this product through the holes. It is not necessary to seal the holes after application.
4. Apply in voids around plumbing pipes behind water heaters and under sinks in kitchens, bathrooms and utility rooms. Plates around pipes should be pulled back to allow access to the void.
5. Remove electrical wall socket and switch covers and dust this product into boxes and voids. If necessary, drill small holes just above the baseboard to gain access into wall voids.
6. If there are cracks or spaces between the wall and doorframes, cabinets, molding or baseboards, they provide excellent hiding places for roaches and ants. Dust a small amount of this product into these areas wherever possible.
7. Apply in attics around the perimeter eaves and around all vent pipes and access areas. Pay particular attention to areas above kitchens and bathrooms.
8. Apply around the perimeter of dropped ceilings.

FOR THE CONTROL OF COCKROACHES, CRICKETS, ANTS AND SILVERFISH in Federally inspected (USDA) meat and poultry plants:

For application only in inedible product areas and nonprocessing areas as a crack and crevice treatment. Apply liberally to cracks and crevices in areas such as around baseboards and in closets; beneath cabinets and appliances, in and around waste containers and into openings around drains, water pipes and electrical conduits. Avoid contamination of feed and foodstuffs. Bait stations may be used. Always record the number and location of bait stations. This product is best used as a supplemental residual treatment preceded by approved spray and good sanitation practices.

WARRANTY LIMITATIONS AND DISCLAIMER

Because of varying conditions affecting use and application, manufacturer warns buyer that these may impair or vary the results or effects of the use of this product. Neither the manufacturer nor seller shall be liable in respect to any injury or damage suffered by reason of the use of this product for a purpose not indicated by the label or when used contrary to the directions or instructions hereon nor with respect to breach of any warranty not expressly specified herein. Buyer accepts this material subject to these terms and assumes all risk of usage and handling except when used or handled in accordance with this label.
